by Jill Burrington-Brown, MS, RHIA

**Q:>** [As a covered entity, do I need to have satisfactory assurance \(as required by HIPAA\) that an individual has been notified when I am served with a search warrant for a patient's protected health information \(PHI\)?](#)

**Q:** From a Washington State Community of Practice discussion thread: [What should our facility do when we receive medical information burned to a CD in place of hard copies? Should we print copies? Should we send the CD back? If copies are printed, should the CD be maintained or destroyed?](#)
